- Core margin stood at 3.43 paisa per unit compared to 3.09 paisa per unit

Management commentary:

Commenting on the results, Dr. Rajib K Mishra, Chairman & Managing Director, PTC India Ltd., said

"The 9 months of FY24 have witnessed a 5% increase in overall trading volumes for the company. This increase in volume is supported by a robust trading margin of 3.52 paisa / unit. The volumes during the

Q3FY24 were subdued primarily due to lower cross border volumes from Bhutan due to their increased consumption and the volatility in the short-term power trading market.

In the current quarter and nine months, our company has maintained its strong business performance. However, we have elected to resolve a longstanding issue with one of our customers, leading to booking a provision. Also, our results show a temporary decrease in our surcharge income which in accordance with our established accounting procedures and cyclical, seasonal factors. Parameters like Rebate Income (which shows an increase of over 30% for Q3FY24) and Surcharge Income are better evaluated on an annualized basis.

Our subsidiary companies have consistently enhanced their financial outcomes, demonstrating a robust improvement in their performance. PFS, a subsidiary of our company, has embarked on a strategic path of transformation, beginning with a comprehensive overhaul of its management team. This move is aimed at addressing the hurdles encountered in last few quarters. With a steadfast commitment to enhancing the quality of its asset portfolio, PFS is poised for sustained growth and success in the forthcoming years.

The Hindustan Power Exchange (HPX), supported by PTC, is achieving significant advancements in its business activities. HPX is progressively expanding its market footprint and affirming its position as a reliable and efficient platform within the power trading sector.”

About PTC India Limited

PTC India Ltd., a Government of India initiative, is the pioneer in starting a power market in India. The Company has maintained its leadership position in power trading since inception. PTC has also been mandated by the Government of India to trade electricity with Bhutan, Nepal and Bangladesh.

The trading activities undertaken by PTC include long term trading of power generated from large power projects including renewables as well as short term trading arising as a result of supply and demand mismatches, which inevitably occur in various regions of the country.

The Company is credited with a number of products in the electricity trading market to meet the divergent needs of the customers. Driven by the vision of shaping a vibrant power market, PTC has been providing value-added services to its clients and built trust as a reliable partner. The electricity traded from cross border resources is a significant component of the total electricity traded by the Company.

PTC is a unique example of a successful public-private partnership with major PSUs of the Ministry of Power, Government of India as promoters and a widely held ownership interest. The diverse composition of its Board of Directors includes eminent people as independent director.
